

# TOXIC & SAFE HUMAN FOODS FOR PETS

**Jimmy's Clubhouse**  
JIMMYSCLUBHOUSE.COM

If you think your pet has ingested something toxic, consult your veterinarian immediately or call a pet poison hotline. Even if the amount they ingested seems less than a toxic doses, it is best to call to get professional recommendations for how to care for your pet.

## MEATS & FISH

### POTENTIALLY HARMFUL

Raw food may contain parasites and cause salmonella food poisoning. If following a raw meet diet, please consult with your vet.

- Raw Eggs
