WHO IS A STRANGER

Anyone you or other members of your family do not know very well should be considered a stranger. Even if their faces seem familiar, like people in your neighborhood or near school, it is smart to treat them as if they were strangers. This means that you should not accept gifts, candy or money from them... or agree to get in their car...or go somewhere out of sight of others with them. Why? **BECAUSE STRANGERS CAN BE DANGEROUS!**

HOW CAN THEY HARM YOU

Strangers who hurt or harm children can do so in a number of different ways. These ways are called forms of **CHILD ABUSE**. Sometimes the abuse is harmful to the body. This is called "physical abuse". Sometimes it can be harmful to the way you think...to your mind. This is called "psychological abuse".

And...sometimes it may be touching or looking at private parts of your body...or touching you in ways that make you feel uncomfortable. This is called "**sexual abuse**". All of these forms of abuse are against the law and should be reported to a trusted adult if they ever happen to you!

TIPS FOR STAYING SAFE

To be safe, here are some very important tips. Remember them when dealing with the people whom you don't know.

- **Never talk to strangers.**
- **Never get in a car with a stranger.**
- **Never let a stranger touch you.**
- **Stay and play in well-lit and monitored places.**

Remember there is safety in numbers. Stay and play in the company of other kids. Never alone.

Strangers who harm children, at first, look and act like everybody else. They try to get you to trust them. Don't be fooled by their friendly talk and sweet smiles.

WHAT ARE PRIVATE PARTS

The private parts of your body are the parts that are covered by your bathing suit. They are private because they belong only to you. Your parents can touch you to give you a bath or apply medicine. Your doctor can touch you during an examination. But, never a stranger! Say "**NO**" if anyone else tries to touch the private parts of your body.

WHO CAN WE TELL?

There are lots of people who care about you and want you to grow up safe and free from harm.

Of course, this includes your parents, members of your family, close friends and neighbors. Your doctor, your teachers and church or temple leaders also care for your welfare. The police department and many agencies in local government are especially concerned about your safety.

If anyone tries to harm or molest you...if anyone is doing it now...or has done it in the past, tell your parents or any of the people mentioned above, and they will make it stop.

REMEMBER, IT'S NOT YOUR FAULT!
