Single stream recycling is coming to Post Falls. Phil Damiano of Post Falls Sanitation announced they will begin delivering the blue single stream recycling carts to homes this week. Damiano said he looks forward to partnering with the City of Post Falls in this environmentally friendly effort and described the single stream service as the easiest and most efficient way to recycle.

The new single stream recycling service will start the week of Oct. 3rd. Residents will continue to use their current blue recycling bins until the new program starts in October. At that time they will have the option of returning the old recycle bin or keeping it. Residents will be able to recycle 21 different items co-mingled in the new 96 gallon blue cart. Service for single stream will be every other week. Garbage collection will remain every week.

A recycling guide describing what products can be recycled and a calendar showing recycling pickup days will be delivered with the recycling carts. Recycling information is also available on the City of Post Falls website at www.postfallsidaho.org and Post Falls Sanitation website at www.cdagarbage.com.

Customers can direct questions and concerns regarding single stream recycling to Post Falls Sanitation at (208) 457-1820 or email janet@cdagarbage.com.
