Notes: The report analyzes cities from the U.S. Census Bureau's Annual Estimates of the Population for Incorporated Places over 50,000, ranked as of July 1, 2012. The Allstate data excludes cities in the state of Massachusetts, due to limited data available in Massachusetts for the two-year time period reflected in this report. The towns Simi Valley, Calif. and Elizabeth, N.J. from last year's report are no longer on this year's report (fell off the top 200 in population). The town of Frisco, Texas was not present in last year's report but made it onto this year's list due to increased population. The Allstate Best Drivers Report is produced solely to boost the country's discussion about safe driving and to increase awareness of the importance of being safe and attentive behind the wheel. The report is not used to determine auto insurance rates. A state specific adjustment was utilized for the Michigan cities to account for the unique coverage offered in that state.

**Four cities were combined with neighboring cities because they share most or all of the same zip codes. This affects West Valley City, Utah, Miramar, Fla., Pembroke Pines, Fla. and Lakewood, Colo., which were not represented in earlier versions of the report. For the 2013 report, these cities are represented in the reported (with combined population and population rank) as the following: Salt Lake City & West Valley City, Utah; Denver & Lakewood, Colo.; and Hollywood & Pembroke Pines & Miramar, Fla.*

***Due to its technical non-city classification, Arlington, Va. is not included in the current U.S. Census Bureau's Annual Estimates of the top 200 populous cities; however it is included in this report for consistency purposes from prior years when the Census Bureau had provided those estimates for Arlington.*
