

Christie Wood responds to comments re: Arfee investigation – 9.9.14

OTV this is a comment I posted on another thread but it bears repeating-The Police Department held a press conference and released the findings of the investigation. Three different review processes determined the shooting was unjustified, and there were policy violations. The investigation documents and review board findings have been made available on our website. We also provided information on Idaho code Title 9 340C that prohibits the City from discussing any personnel matters as it pertains to discipline. I am sincere in my question. What more is there to disclose and why do you think I am being shady?
