

For Immediate Release

Builders back Noble

The North Idaho Builders Political Action Committee (NIB-PAC), representing the interests of the North Idaho Building Contractors Association has endorsed Bruce Noble for the Kootenai County Board of County Commissioners District One position. The endorsement was based on Mr. Noble's "approach to problem solving in our county as well as the fundamental principles of your campaign".

"I'm honored to be endorsed by the committee that represents the interests of contractors in Kootenai County. I think my experience as a civil engineer and land surveyor working with land use codes in Kootenai County over the years, as well as my knowledge and approach to dealing with the Community Development Department was a big deciding factor in the NIB-PAC decision. They want someone who will make things work smoother. They know we need to develop a land use code that supports the building industry, creates jobs, and protects private property rights. This is all experience my opponent does not have."
