

RESOLUTION ON CLIMATE CHANGE

KC-1416-013

Preamble

Whereas, The Intergovernmental Panel on Climate Change (the IPCC) has falsely declared that man is the chief cause of global warming through the burning of fossil fuels, and that this warming will reach a “tipping point” where temperature will rise very rapidly destroying most living things; and

Whereas, The IPCC is a UN committee with a goal of gaining more control over the peoples of the World; and

Whereas, Carbon Dioxide is the principal source of food for plant and animal life on the Earth; and

Whereas, The Earth has been warming and cooling for thousands of years; and

Whereas, Many climatologists have observed that the temperature of the Earth varies with changes in solar intensity (sun spots); and

Whereas, It is evident that man has little effect on temperature; and

Whereas, Modern civilization depends on cheap and plentiful energy and attempting to control carbon dioxide and temperature will lead to much poverty in the world; therefore, be it

Main Motion

Resolved, That the Idaho Legislature not support any so-called green programs (mainly wind and solar) with any financial support; and be it further

Resolved, That public utilities not be required to support the construction or use of wind and solar energy programs which result in higher utility rates.
