Dear Tena:

My medical practice has been significantly impacted by these difficult economic times. Despite my best efforts, I regret that I will not be able to keep my medical practice open. In fact I have sent out letters to all of my non-House Calls patients to let them know that my regular office will be closed as of June 12, 2009.

**However, as a House Calls patient, I want to reassure you that completing your initial evaluation and first month follow-up is my priority.** I plan to conclude this program by August 30, 2009. This means that I need to complete your initial evaluation by July 15, 2009. This allows me to follow your progress for one month. For long term follow-up, I will send you a list of providers in your area that are familiar with bio-identical hormones.

Many of you are in various stages of completion of your program. You may already be scheduled for your first call with me or are now scheduled for our one month follow-up call. These appointments are on my calendar and I look forward to talking with you then.

If you are still in the process of completing the information I requested for your medical chart before your first appointment, please note that I need the following:

- 1) A copy of your recent medical records to include your current physical examination and if for menopause evaluation, I will need results of your recent mammogram
- 2) Return of any completed forms I sent you in the colored packets (consents, worksheets, etc).

It is important to have your appointment set **before July 15, 2009**. Please contact my assistant, Jennifer, 509-362-8585. If she is unavailable, please leave a message and she will get back to you.
