

# Spokane County park cutbacks

Cuts will range from minimal service reductions in level 1 parks to major reductions in level 3. Ten level 1 parks will receive nearly normal service while seven level 3 parks will get only minimal attention. Two level 2 parks will get irrigation, tables and a little more maintenance than level 3 parks. Restrooms will stay locked in level 2 and 3 parks, and no drinking water or garbage service will be provided. In all levels, maintenance will occur only from June 1 through Sept. 15 instead of the usual mid-April through mid-October.

Details are available by clicking on the "Parks and Recreation" link on the Spokane County Web site: [www.spokanecounty.org](http://www.spokanecounty.org)
