# Math test changes

---

- ▶ In Spring 2010, grades 3-8 MSP tested students on new math learning standards
- ▶ 2010 results set new baseline for grades 3-8 MSP
- ▶ Comparisons to previous years are inevitable, but not apples to apples because of new test and new standards
- ▶ Need at least three years of data to determine effectiveness of new math standards

# Adequate Yearly Progress

- ▶ Schools must have a certain percentage of students meet standard on the state assessment in reading and math
- ▶ In addition, 95 percent of all students must participate
- ▶ Nine groups are also disaggregated, according to ethnicity and/or special program
- ▶ In all, schools must meet up to 37 categories
- ▶ If even one category isn't met, that school doesn't meet AYP
- ▶ Current rules require 100 percent of students, schools and districts to meet standard in 2014

# NCLB requires 100 percent meeting standard by 2014

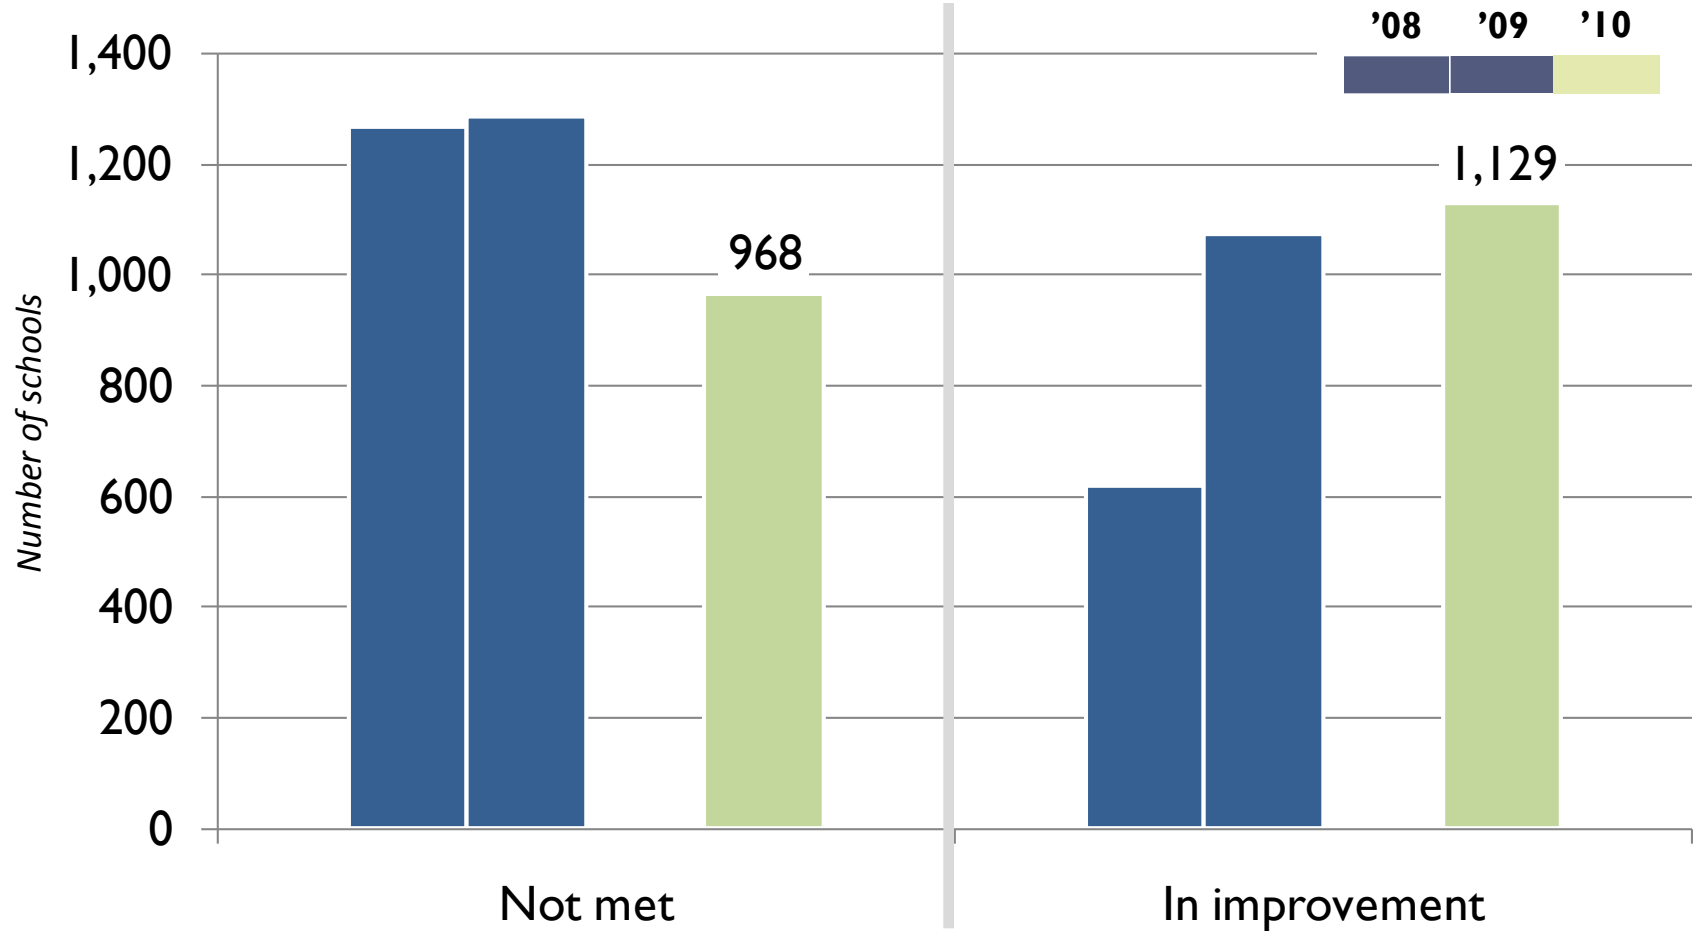

*Minimum percentages needed to meet AYP, grades 3-5*
