Look at SVMC 2.45, the one I texted you the other day. The Code says we have a Public Safety Department that oversees all public safety functions, even fire service. It says the City Manager is Director of it, but I assume we could change it. I would assume we would want a civilian with command and management experience and then a uniformed officer as his/her deputy. Or not, just have the Director of Public Safety perform all the functions of a police chief in addition to the other public safety stuff.

Certainly something to think about. Perhaps another way to skin our cat. Would require a significant contract change.

Subject: Public safety director

Hello. Have you guys considered hiring a public safety director for the valley police department under the control of the city council and not Ozzie. He could be commissioned and would control the valley PD. There would probably not be a need for a police chief since the public safety director would do that and you could also have your own public information officer under the council control. Of course Mike Jackson would need to be put under control and quit hiding contracts and study findings. Just my opinion and would need further study but I think this would be a good start to eventually forming a separate law enforcement police department. I personally think Wally Louckes is a very capable and has the education for the public safety director position. Ozzie has a target in his back because he challenged Ozzie in the past and Ozzie conducted an internal affairs investigation on Wally to try and find a reason to fire him. Ozzie's goons never found anything wrong. It would certainly be good to have a discussion about it.
